XARPENT

TABLE OF CONTENT

INTRODUCTION

Xarpent is a Cross-Chain Swap Aggregator which allows you to swap any assets, on and between 5 blockchains in one click.

We've also developed a tool which gives our partners the ability to customize and add our widget on their website in order for their community to easily swap their token across the supported Xarpent Block-chains in one click. For example: You can easily swap BNB to ETH or AVAX to POLYGON, across chains.

BLOCKCHAINS

|			
BNBCHAIN	BNB	✅
ETHCHAIN	ETH	✅
AVALANCHE	AVAX	✅
POLYGON	MATIC	✅
CRONOS	CRO	✅

SECURITY & AUDITS

We maintain open communication with our investors so they can stay current and informed with every step of our growth. Being an aggregator, we ensures security via automated monitoring and switches off transactions to a corrupted service immediately.

AUDITS:

TOKENOMICS

The 1 Million tokens that make up the restricted quantity of $XPT cannot be "minted" or inflated. A "tax" is included in the $XPT smart contract and is automatically deducted from each transaction.

The maintenance, marketing, and liquidity pool are all funded by taxes.

LEGAL DISCLAIMER

You should carefully consider the risks involved in purchasing and holding digital currencies and also the risks described below, as well as the other information included in this Whitepaper (the "White Paper"), before you decide to use any of the information herein and/or purchasing the Xarpent tokens , and/or the score tokens and/or attempting to use the Xarpent network. For further information, please carefully read the Legal Considerations, Risks and Disclaimers which constitutes an integral part of the White Paper.

This White Paper is meant to provide the reader with general information regarding the Xarpent token and the score tokens (together, the "Tokens"), and the Dapps platform (the "Platform"). It is meant to inform the current design and/or planned design of the Tokens and the Platform. This White Paper is informational only and does not represent any commitment to you, the reader, of any of the current or future designs or functionality of the Tokens, or the Platform. Moreover, this White Paper is not a solicitation to purchase the Tokens or any other instrument.

Purchasing the Tokens involves considerable risk. The Tokens may become worthless and the Platform may not meet your needs. No purchases can be refunded or exchanged. Do not purchase the Tokens with money you cannot afford to lose. There is no guarantee that the utility of the Tokens will meet your needs or expectations.

The "Xarpent Team" are anonymous and pseudonymous developers and computer programmers.
The Xarpent Protocol is decentralized, and bigger than any particular individual or team.
